## Who We Are ?

Specialized Gulf Co. is primarily a painting and flooring contracting company based in Kuwait, providing an assortment of services as well as selling products in these fields. Our company was established with an aim to lead quality and high standard improvements in the coating industry and chemical building materials of different types. Our products and materials are of the highest standards and are manufactured by some of the most advanced technologies in the industry.

Our company name represents who we are and what we aim to be. We are specialized in our field and we aim to be the first destination for clients in Kuwait. We believe in the need for development, continuous learning, and modernization, keeping up with all the new advancements in our field to maintain our position of leadership.

We have the ability, knowledge, and experience to handle your requests and we are adept at finding quick and efficient solutions for your projects. We aim to build strong and long-lasting relationships with our clients. Our clients can rest assured that we always follow the highest quality standards in our work to ensure customer satisfaction upon delivery.

We aspire to be the main contributor towards the urbanization and modernization of Kuwait, creating aesthetically beautiful places everywhere we go.

Our mission is to work perfectly with passion, becoming the number one destination for clients in our field, delivering aesthetic and excellent results that are of the highest standards.

## Mission

We aim to lead the improvement of quality and standards in the coating industry and be the leading company in chemical building material in Kuwait. An effective management and clear and determined planning support our vision toward the future.

## Vision

## Ethics

We have managed to build a strong and positive reputation in the industry by maintaining solid work ethics and by always following our implemented rules and regulations.

We strive to provide a comprehensive service to our clients following the highest professional and quality standards.

Listening to our clients and understanding their exact needs is critical in order to provide the best services.

We understand what it means to work within a deadline and we promise to always be on time and maintain the agreed upon time frame for the delivery of the project. Because quality and high standards are at the core of our vision for the future, we pledge to always follow manufacturer specifications and industry standards and to always use the best and least harmful material the industry has to offer to protect our clients and the environment.

We value our clients' trust and confidence in us and we will always provide our customers with the correct information, offering full disclosure with complete transparency.

We adopt innovation as well as creative and positive thinking and we are always pursuing knowledge in terms of all the latest products and technologies.

## Our Team

Our specialized and highly trained team brings a wealth of knowledge, expertise, superior quality of workmanship, focused dedication, reliability, and professionalism to every project. Every member of our team works diligently and tirelessly to deliver the best and most satisfying results on time.

They make sure to stay up to date to the latest technologies and products and to receive the required training to be able to use them.

Scheduled training of the manufactures is carried out periodically in order to keep our team up to standard.

## Services

We are proud to provide various services in the field of painting and flooring contracting. Our services are designed to offer the best solutions for our clients' different needs and requirements. .

## Coating Contracting

We supply conventional paint coating where we use products such as Jouton, JTC, Hemple, and much more. Our products are of the highest caliber and we can carry out paint jobs for villas, houses, malls, schools or industrial buildings.

## Façade and Internal Wall Plaster Contracting

Facade plasters are used to improve a building's insulation properties and to ensure proper protection against the penetration of water and heat. It is an essential step for any new house or building if they do not wish to cover it with stone. Internal wall plaster is also an essential step before the wall painting and coating comes into play.

## Decorative Paint

With decorative painting you can take an empty wall and transform it into a beautiful masterpiece. The type of paint used here is mostly acrylics; they are water-based and therefore non-toxic. These paints can be used to create different effects and shapes to suit different perceptions and desires of our clients, and they are available in a very large number of colors. Decorative paint can be used in villas, hotels, offices, and salons.

## Weather Resistant Paint

Severe weather conditions such as extreme heat or cold, sea vapor, and prolonged exposure to the sun all take their toll on building exteriors that can be seen in cracks and building deterioration. This will provide protection against such conditions. This type of paint is essential for buildings, villas, and sea houses.

## Functional Paint

Paints and coatings can be used to provide protection as well as create beautiful and dazzling aesthetics. Functional antimicrobial paint offers our clients protection against microbial threats and bacteria. Functional paint can be implemented in swimming pools, central kitchens, hospitals, nurseries, operation theater, sauna rooms, bathrooms, and so much more.

## Polished Concrete

As a sustainable and low maintenance flooring option, polished concrete is becoming a popular flooring solution especially since it is considered a "Green" flooring system and LEED approved. The result of polished concrete is something akin to an artistic masterpiece offering a beautiful and aesthetically pleasing view that dazzles the eyes. Polished concrete can be used in restaurants, offices, malls, and shops.

## MMA Flooring

MMA (Methyl Methacrylate) is a dual system polymer that is popularly used as a commercial and industrial floor coating. Because of its strength and durability and because of being a quick cure that does not cause any stoppage in everyday operation, it has become the number-one solution for flooring services. MMA flooring can be found in central kitchens, warehouses, swimming pools, car show rooms, clinics, fisheries, and food processing factories.

## Epoxy Flooring

Because of the extremely strong and resistant nature of epoxy, it can be used in even the most demanding of industrial environments. Here at Specialized Gulf Co., we offer epoxy flooring services to our clients of the highest standards. This type of flooring can be used in car parks, warehouses, and home garages.

## Functional Flooring

Providing functional flooring that is resistant, resilient, and aesthetically pleasing. Functional flooring can be implemented in airports, freezers as well as bridges.
